

The background of the entire page is a scenic landscape of mountains at sunset. The sky transitions from a light blue at the top to a warm orange and yellow near the horizon. The mountains are silhouetted against the bright sky, with some peaks appearing as dark shapes against the lighter background. In the foreground, a hiker is visible on a rocky ridge, looking out over the vast mountain range.

About Us

Scaling Healthcare — It's What We Do.

At SCALE Healthcare, our singular focus is to elevate management performance across healthcare services. We are dedicated to partnering with management teams across every city and state — and across every clinical specialty — as they endeavor to build great healthcare services companies. We provide both the broadest and deepest range of solutions available to healthcare management teams today, based on our fundamental belief that narrow and/or purely theoretical solutions can't solve for multi-disciplinary challenges.

SCALE was founded in 2019 by Roy Bejarano and Jason Schifman with a vision to help management teams and healthcare providers build sustainable businesses.

SCALE Presence

Why SCALE?

We are perfectly relevant to your business. We only work with healthcare services companies.

We are proven operators ready to help you, not just consultants.

We pride ourselves on being cost effective and delivering tangible results.

We invest in our clients across all regions and alongside private equity groups if requested.

SCALE Companies

Choose from our dynamic and flexible services offered through our family of brands to solve for the missing pieces unique to your business operations.

SCALE is like a personal trainer. The results happen so much faster when someone guides you rather than trying to get it done alone. They feel like members of the company, executives, who do the necessary detail work to effect change. If you want to grow and be more profitable by working smarter instead of faster, they can get you there. They are there for the long term, increasing accountability, efficiency, and ultimately EBITDA far beyond their cost.

Case Study

Platform Strategy, Operations & Development

Overview

SCALE was tasked with a 'blank slate' mandate for one of its clients. The Company was stable, but was looking for outside guidance on how to further improve its business and operations.

Execution

SCALE reviewed the business and identified six key initiatives.

1. Improve RCM oversight and reduce RCM cost
2. Build a Business Development/ M&A program
3. Enhance network wide oversight program
4. Build a Business Development Program
5. Build an M&A Program
6. Develop Site Oversight Program

Results

Cost Savings: Secured meaningful cost savings from several vendors totaling approximately \$1M.

Established Roadmap for Growth: Developed marketing collateral and list of targets. Reached out to targets and initiated multiple conversations.

Site Performance Improvement: Improved performance at underperforming sites and reduced monthly losses.
